CENTERVILEE TO HAVE BIG, NEW FORD GARAGE

Work is now well under way on the new garage in Centerville. When this new building is completed Washington township will have one of the most modern and best equipped sales and service stations for Ford products in the entire bay region. Bohner, Galbraith & Waterbury, the Ford agents who will occupy this fine new structure, are well and favorably known in this community for their fair and square way of doing business. C. H. Waterbury, the manager of the new garage, will move to Centerville to live in the near future. See display advertisement on page four of this issue.

TRUSTEES PLAN CANVASS

The Board of Trustees of the Niles church met on Sunday afternoon to consider the church finances. For several years there has been no thorough and systematic canvass for the support of the church. As a result of this policy the church was closed for a time but reopened last fall on the strength of accumulated reserves. Encouraged by the success of the work and the renewed interest and activity the loyal supporters of the church have carried on the work without asking for peldges from the many constituents who are receiving the benefits and making but relatively small or no contributions to the work. The reserves have now been exhausted and it is no longer possible for a few to provide for the constantly enlarging service which the church is rendering. It must now call upon all its constituents for the systematic giving of definite amounts, in order that the good work may go on. There is no doubt in the mind of the trustees or anyone but that the friends of the church and the recipients of its benefits will be willing and glad to underwrite its moderate budget. The church has made a splendid record during the past year. The values and services which it has extended, if measured in dollars and cents, would literally run into several thousand. But due to the large volunteer corps of workers, it is able to provide all these services for the small sum of approximately $22000 per year. The actual canvass will be made during the last week in September; meanwhile all concerned will be more fully informed concerning the vital work which this necessary organization is doing for our community.

EL CERRITO WINS

The Kraft Cheese Ball Team took their second defeat Sunday, losing a hard fought game to the El Cerrito Merchants, score 13-2.

Over confidence after their win of 17-3 the Sunday before and the absence of their regular catcher is believed to have caused such a one-sided score.

The Kraft Cheese Team had very little hopes of winning that game anyway, as the El Cerrito Merchants are a Triple-A team, while the Kraft boys have been playing Class-B teams.

Starting Sunday, September 11th, the Kraft Cheese vs. Newark will play a three game series, the first game to be at Newark.

This contest will probably be one well worth watching, as all the players are local boys, most of them good players and well known in Washington Township. It is hoped that this series will be a big success and the beginning of some real exciting series among some of the other local teams.

First game—Kraft Cheese vs. Newark, at Newark, Sunday, Sept. 11th.

Second game—At Niles, Sunday, Sept. 18th.

KRAFT CHEESE BALL TEAM.
K. H. Leash, Manager.

ALVARADO REFINERY TO OPEN THIS MONTH

After being closed for nearly three years, the old sugar refinery at Alvarado will open about the middle of the month for a run of several months to handle the sugar beet crop raised in this and nearby sections, according to J. A. Logan, field representative of the company. Sugar beet raising in Washington township is reported to be increasing so rapidly that the plant may be in operation every summer, Logan said.

GIVE A GUESS

A representative of the Township Register took occasion to count the cars met by the Peerless bus from Oakland to Niles, a distance of 23 miles; time one hour and five minutes; last Sunday evening, leaving Oakland at 7:15. The number is marked in a certain place in this office, and the one that guesses the closest numbers will receive one year's subscription to the Township Register free, providing they are or become subscribers to this newspaper. All guesses must arrive at Township Register office not later than 6 p. m. Saturday, Sept. 3, 1927.

CENTERVILLE

Mr. Cyrie Attwood, who has been attending summer school at Stanford, is home for his vacation.

P. C. Hansen is erecting some houses on his lots on the Newark road.

Mr. Fitzgerald has been under the weather for a few days. He expects to take a vacation. He, his wife and Mrs. M. Mathiesen will leave for a few weeks on the 2d.

Mrs. Christesen ,who has been quite ill for several months, is in the hospital. It is hoped that she will soon recover.

Mrs. Carrie Emerson and Maxwell Stevenson will soon leave on a motor trip, sampling different places until they find what they want.

Mrs. Emily Mowry came from San Francisco to attend the funeral of Mrs. H. Eaton.

Mr. and Mrs. W. Paterson of East Oakland and Mrs. E. Beard or San Francisco spent Sunday with Mr. and Mrs. Hawley.

Mr. and Mrs. Howard Overacker of St. Helena, Dr. Louise Overacker of Wellsley, Mass., Mr. and Mrs. Justus Overacker, spent Tuesday with Mrs. F. O. Bunting.

St. James Guild will resume activities on September 7th. It is said that there is to be a card party given in October.

Many will remember Mrs. Wm. Fall—Bertha Whipple—and rejoice in the news that her first grandson arrived on the 19th. The proud parents are Mr. and Mrs. Sargent of Alameda.

The news that Mrs. Helen Eaton had broken her ankle proved wrong. It was her hip. From the first it was alarming to her friends owing to the ripe old age of 93. In spite of everything that could be done she sank to rest on Saturday. She was taken to her son's, Dr. DuBois Eaton, and the services held on Monday at 2 p. m., Rev. F. V. Jones officiating. She was laid at rest in the family plot at Irvington. She leaves many sincere friends to mourn her loss.

Mr. Geo. Coit and family returned from Los Gatos this week. They had a delightful outing.

Mr. and Mrs. Frank Dusterberry and Miss B. Dusterberry have returned from Santa Cruz.

LINDBERGH TO VISIT IN SAN FRANCISCO

Interest in the coming visit of Col. Chas. A. Lindbergh to San Francisco is so great that Southern Pacific will hold all extra passenger equipment in readiness to transport crowds expected to assemble from every part of Northern California to greet the famous aviator.

Lindbergh, flying the "Spirit of St. Louis," is scheduled to land at Mills Field, San Francisco, at 2 p. m. Sept. 16th. He will be taken immediately to Golden Gate Park, where a public reception is to be held.

L. F. Hudson, district passenger agent, advises that Lindbergh's visit will attract more people to San Francisco than any other single one-day event of recent years and preparations are being made to handle crowds from a radius of 200 miles without confusion, discomfort or delays.

Special rates of a fare and one-third for the round trip will be offered on the above occasion.

FUNNY PLACE TO SHOOT A FELLOW

"Berkleyite Is Shot in Mishap," reads a heading in last Sunday's Oakland Times.

Here's another: "Little error of 250 million miles by a U. S. scientist due to moonshine." He'd think a scientist would know better than tackle the brand of moonshine now being handed out to the public.

EAGLES PLAN DANCE FOR COMING SATURDAY NIGHT

A San Jose orchestra has been engaged by the Alvarado Aerie of Eagles to furnish the music for a dance to be given in Parish hall, Centerville, Saturday night, in celebration of the twentieth anniversary of the founding of the Alvarado lodge.

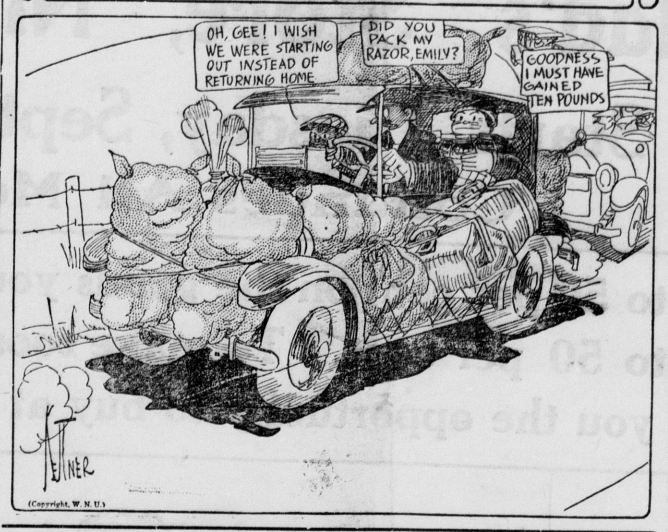
The aerie will continue its celebration early next month with a banquet and class initiation to be held in Alvarado. It is expected to draw officials and visiting members from many of the Bay district lodges.

DECOTO COMMERCE CHAMBER TO MEET TUESDAY

Accumulated business will be disposed of by the Decoto Chamber of Commerce when it resumes activities Tuesday after a summer vacation, according to Roland Bendel, the secretary.

One of the principal matters to be taken up will be plans for a banquet to be given in the near future to celebrate the completion of the pavement of the Decoto-Centerville road.

Homecoming



OH, GEE! I WISH WE WERE STARTING OUT INSTEAD OF RETURNING HOME
DID YOU PACK MY RAZOR, EMILY?

CAMPFIRE GIRLS HOLD SEASON'S FIRST MEET

Tolahia Group of the Niles Campfire Girls will meet Friday evening at 7:3 o'clock at the home of the guardian, Mrs. J. E. Townsend. This will be the first gathering of the girls since adjournment in the spring for the vacation season with the exception of the two weeks spent recently at a Sierra camp.

Several projects for this winter's work are to be considered and it is hoped that all members will be on hand promptly.

* * *

Among the meetings of interest to women for the coming week is that of the Guild of the Congregational church at Niles, election of officers to be the business of the day. This meeting is to be held at the church on the afternoon of September 7, at 2 o'clock.

Mrs. Ralph Richmond and Mrs. George Bonde are hostesses for the day.

Present officers of the organization are:

Mrs. A. A. Hatch, president.
Mrs. E. A. Ellsworth, vice-president.
Mrs. C. E. Martenstein, secretary.
Mrs George Bonde, treasurer.
Mrs. F. M. Hudson, Mrs. F. Kennard and Mrs. Ralph Richmond, directors.

* * *

MRS. ROBIE WINS FIRST PRIZE AT CARD PARTY

First prize at the meeting of the Birthday Club held last week at the home of Mrs. John Scribner in Livermore was won by Mrs. Walter Robie of Alvarado and cut prize by Mrs. Dora Tainton of Oakland. Guests present were:

From Alvarado—Mrs. August May Sr., and Mrs May Jr.; Mrs. Dora Richmond, Mrs. George Hellwig, Mrs. Walter Robie, and Mrs. Ralph.

From Oakland — Mrs. Emma Hellwig, Mrs. Dora Tainton and Mrs. McCarty.

* * *

MRS. AUGUST MAY SR. TO HAVE CLU BLUNCHEON

Mrs. August May Sr. will entertain the Birthday Club at luncheon September 16, at the new hotel in Alameda. The afternoon will be spent in playing cards.

* * *

VISIT MRS. HUDSON

Another of those delightful reunions was held last week-end at the home of Mrs. Florence M. Hudson of Niles, Mr. C. W. Hatch and son from Seabright having come over for Mrs. Hatch and the other son to accompany them home to Auburn; and Mr. and Mrs. Ralph L. Button and daughter from Burlingame having come down for the week-end.

* * *

RECEPTION FOR TEACHERS AT HIGH SCHOOL SEPT. 19

At a meeting of the Parent-teachers Association of the Washington Union high school last Thursday, plans were made for the reception to be given to the board of education, teachers of the high school and all the grammar school faculties of the township, on the evening of September 19

Mrs. F. V. Jones was made chairman of the program committee and Mr. Fred Dusterberry chairman of the refreshment committee. Mrs. Walter Robie, president, presided at the meeting.

* * *

MRS. COTTON HERE

Mrs. Gertrude Cotton of Oakland was visiting friends in Niles this week.

* * *

FROM SAN RAFAEL

Mrs. Howard Plummer of San Rafael has been visiting Mrs. E. Bertstrom.

* * *

DUFFEYS MOVE

The George Duffey family have moved into the Joe Silva home on Third street.

* * *

FROM PORTLAND

Sister Mary Elbert of the St. Vincent Hospital in Portland will arrive this week to visit with Mr. and Mrs. Walter Robie of Alvarado.

* * *

MRS. ROBIE TO ENTERTAIN ALVARADO CARD CLUB

Mrs. Walter Robie will be hostess to the Alvarado Bridge Club next Wednesday afternoon. Guests will make up two tables.

* * *

LOIS ABROTT ENTERTAINS

Miss Lois Abrott entertained a number of school friends at an informal party at her home last Friday evening. Music and dancing were enjoyed, as were of course the "eats."

* * *

FAREWELL PARTY

Miss Alice Lucas of Niles was the honor guest at a party given at the home of Miss Edna Destrella one evening last week. Miss Lucas is to enter a nurse's training class in an Oakland hospital.

* * *

TURLOCK PICNIC

Mr. and Mrs. G. E. Ferry entertained a group of friends from this section with a picnic at their ranch near Turlock this past week. Guests included Mrs. C. E. Fournier, Mrs. Milton Fournier, Mrs. J. B. Barnard, Mrs J. Cahill and Mrs. W. Fleming.

* * *

RETURN TO PASADENA

Mr. and Mrs. Halbert Halbertson of Pasadena have returned to their home after a month's visit at the Belvoir Hotel, Niles.

* * *

TO HONOLULU

Mrs. Maggie Bell of San Francisco expects to sail next Wednesday for Honolulu.

* * *

SIXTY-FIVE CHILDREN PATRONIZE CAFETERIA

Sixty-five hungry children of the Niles Grammar school quickly did away with the hot lunch prepared for them in the cafeteria on the opening day, Monday of this week, demonstrating unquestionably the popularity of this part of the curriculum. A number of the mothers were present to assist Mrs. Carthy, in charge.

* * *

BABY HOSPITAL GROUP TO PLAN FOR XMAS BAZAAR

Plans for the participation of Toyon branch of the Baby Hospital Association in the organization's Christmas bazaar to be held December 9 and 10, will be made at the season's first gathering of the local branch at the home of Mrs. R. O. Driscoll of Mission San Jose on Sep-

(Continued on Page Four)

MEMBERS RELATE THEIR PISCATORIAL VENTURES

DECOTO

Vacation School Has Great Success

The Decoto Vacation Bible School will come to a close tomorrow with their big exhibit. The things which will be displayed are all kinds of wooden animals, aprons, pot holders, table cloths, laundry bags, many beautiful vases of all sizes and colors, match scratchers, tooth brush holders, oil cloth doilies with oil paintings on them, book covers, oil paintings, pin trays, pictures, frames, a paper city, kindergarten work, pots for flowers, and other miscellaneous things. The children tomorrow afternoon will put on three plays, song and stunts.

The faculty of the school was: Miss L. Breiner, superintendent, Elizabeth Bowers, sewing teacher; Orville Blose, oil painting and carpentry teacher.

The total attendance since July 16 is 543. The classes met on Tuesdays, Thursdays, Fridays and Saturdays.

Christian Endeavor Rally Day

Last Sunday evening the Decoto Community Christian Endeavor had a sort of reorganization. Miss Breiner was appoined chairman of he program-service committee. Other chairmen appointed were: Isobel Thomas, social committee; Ruby Bowers, lookout committee; Sofia Swanson, flower committee; James Beveridge, reception committee; Miss Breiner, music committee.

Decoto C. E. Presents Play

Ten of the members of Christian Endeavor of Decoto will give a three-scene play tomorrow evening at 7:30 and 8:30 o'clock. The title is "A Little Maid of Israel," by Paulise Donovan. It has a very dramatic plot and is a story which is liked by all. The plot is as follows: Naaman, who is a great Syrian captain, is stricken with leprosy. His little maid tells him that in Israel there is a prophet of God who cures people. King Benhadad, who is a great friend of Naaman, sends his friend to Israel. After going down seven times in the Jordan river, Naaman is cured. Great is the excitement when he returns home. For her reward, the captive maid is allowed to return to her mother in Israel.

Musical selections will be reidered by Misses Breiner and Thomas, and James Beveridge.

Another feature of the evening will be the big exhibit from 7 to 9. There is no admission fee, and all are welcome.

ST. JOSEPH'S CHURCH TO GIVE WHIST PARTY

Dinty Moore's Tavern, Mission San Jose, will be the scene of a benefit whist party to be given September 16 under the auspices of St. Joseph's church, according to Father John Leal.

Funds raised through the card party will be used to finance church activities in the parish. Tickets are being sold by Father Leal and at the tavern.

ALAMEDA COUNTY HIGHER PER MILE

LOS ANGELES, Aug. 26.—The research department of the California Taxpayers' association today made public comparative costs of highways for the fiscal year 1925-1926 in ten selected counties of California.

In per mile of highway costs, Alameda county has highest, with a cost of $3,912.52; Contra Costa, $813.80; San Joaquin, $639.07; Santa Clara, $466.59; Sacramento, $319.40; Solano, $218.32; Stanislaus, $136.00; Glenn, $134.08; Kern, $68.89; Fresno, $41.59.

In per capita costs Glenn county was highest, with $11.77; then San Joaquin, $9.17; Contra Costa, $8.31; Kern, $8.21; **Alameda, $6.90;** Santa Clara, $5.48; Solano, $3.59 Stanislaus, $3.36; Sacramento, $2.91; Fresno $1.48.

PROMISING PROSPECTS PREDICTED

Judging by the pre-rally attendance at Church School, church and Endeavor, Rally Sunday is going to be an epoch making day in the revitalization of Niles Congregational church. With the opening of school the children of the church have poured back into the church school that they are glad to get back, every shining face bears testimony. The pupils of this school do not count it a duty to attend but they "count it all joy." This does not mean that the quality of work done is shoddy but rather that it is done so efficiently and faithfully that it is counted a privilege to be able to share in it. Pupils of the C. S. set the Rally Day goal at 75 and they will not fail to reach it. This week they are engaged in a poster contest for which prizes will be awarded next Sunday. Attendance at church services was also good. The prospects are very favorable for a full house on Rally Sunday, September 11th.

"Sweet sixteen" were the number in attendance at the Chamber of Commerce meeting last Tuesday noon. We say "sweet" advisedly, from the fact that not a sour disposition was shown during the rather heated debate over the modus operandi of handling the proposed proposition of installing band music in Washington township, as heretofore related in these columns.

Various numerous suggestions were after a time amicably settled by a motion by Mayor Jones and seconded by Jack Crawford that the Chamber of Commerce pledge themselves to raise their quota, and then some, if necessary, to insure the furnishing of ample instruments desired.

No other official business was transacted. Socially, the meeting was a success, regardless of a rather light attendance. Some of the members, including Roadmaster Gnomes, Jack Crawford of Kraft Cheese, and L. T. Smith of Associated Oil, related some wonderful recent piscatorial adventures that caused their hearers to "wink the other eye," but no doubt true stories of their prowess as successful nimrods.

PATRONIZE YOUR HOME MERCHANT

In this issue will be found, in bold display, the announcement of a "Mid-Summer Sale" at Hadad's store in Niles. You will find some remarkable bargains. It always pays to patronize the home merchant, more particularly if you can buy just as cheap or a little cheaper as is the case in this instance. Hadad needs the money, and is making some great sacrifices to get it.

NERVE OF THE DEVIL

While Frank Cesari was doing some repair work on the Township Register's linotype last Tuesday evening, parking his car immediately in front of the office window, by the main highway, within twenty feet of where he was working, with a street light on the corner, directly opposite, some one with nerve of the devil drained the gas tank completely of about four gallons of gas, leaving a nice new tin funnel as an evidence of their prowess.

MUTUAL STORES, INC. TO HAVE $750,000 PLANT

Actual work is now under way on the new three-quarter million dollar plant of the Mutual Stores, Inc., that will be erected on the recently acquired 5½ acre tract in East Oakland. The building will cover a solid block of 404 feet on East 14th street from 57th to 58th avenue, and will extend 758 feet toward the bay. It is to be a two-story brick and concrete structure, and will be ready for occupancy early in 1928.

The Mutual Stores operate 200 grocery and creamery stores in Oakland, San Francisco and other bay cities. The company also operate its own creamery, ice cream, bakery and coffee roasting plants, and all of these manufacturing units will be housed in the new building.

The Mutual building will be in the shape of a huge horseshoe with a total floor space of 150,000 square feet. The offices will be on the upper floor, facing East 14th street. On this floor there will also be a large auditorium with complete recreational facilities.

The grocer yand produce warehouses will occupy the east wing. This will be served by a double spur track, which will make it possible to unload twenty or more cars at one time. The bakery, creamery and coffee roasting plants will be in the lower floor front and in the west wing. The building will also house carpenter, paint and machine shops and a printing plant.

A principal feature of the Mutual plant will be the modern equipment. The bakery will be equipped with huge traveling ovens capable of supplying more than 500 stores, and the very latest pasteurizing and bottling machinery will be installed in the creamery.

The new Oakland building is planned to take care of further expansion of the Mutual stores north, to the Great Valley, and down the peninsula. All of these projected extensions will be directed from headquarters in Oakland.

The Mutual building is being erected under the direction of Emil A. Hagstrom, president and general manager of the company, and John Nickelsen, general superintendent.

AMERICAN LEGION WILL HAVE BANQUET SEPT. 13

Washington township post of the American Legion will resume its activities September 13 with a banquet to be served in Odd Fellows hall as a get-together for its membership.

The post, which is one of the few in the state to exceed its membership quota, plans to take an active part in the civic affairs of the township during the fall and winter.

NOTICE OF SHERIFF'S SALE OF REAL PROPERTY ON EXECUTION

No. 96338

A. BRANDON, Plaintiff,
vs.
FRANK F. FARIA, Defendant.

By virtue of a Writ of Execution, issued out of the Superior Court of the State of California, in and for the County of Alameda, wherein A. Brandon is plaintiff, and Frank F. Faria is defendant, upon a judgment rendered by the said Court on the 28th day of June, 1927, for the sum of $2829.53 lawful money of the United States, besides interest and cost, I have heretofore levied upon all the right, title, claim and interest of Frank F. Faria, the therein named defendant, of, in and to the following Real Property, to-wit:

All that certain piece or parcel of land, situate, lying and being in the Township of Washington, County of Alameda, State of California, and particularly described as follows, towit:

Beginning at a stake in the Southeasterly line of the County Road leading from Niles to Centerville, where the Southeasterly line of Survey seventy-six (76) of the Ex-Mission of San Jose intersects the same and running thence along said Southeasterly line of Survey seventy-six (76) South 33 degrees West, twenty-five and 70-100 (25.70) chains to a corner in the fence; thence South 57 degrees East six and 85-100 (6.85) chains to the Southwesterly corner of the land of C. H. Hatch; thence along said Hatch's Northwesterly line, North 33 degrees 6 minutes East twenty-one and 90-100 (21.90) chains to a point to an Easterly line of a fourteen (14) foot private road; thence along said line of private road North 13 degrees 40 minutes West seven and 61-100 (7.61) chains to the Southeasterly line of said County Road leading from Niles to Centerville; thence along said last named line South 75 degrees 33 minutes West one and 95-100 (1.95) chains to the place of beginning.

Containing seventeen and 05-100 (17.05) acres and being the two parcels of land described in the following deeds: Fifteen (15) acres conveyed by John Praira Ferea to Joseph Fields by Deed, dated October 21, 1875 and recorded in Liber 115 of Deeds at page 402, Alameda County Records and the two and 13-100 (2.13) acres conveyed by Anna Maria Cheney to Joseph Fields by Deed, dated October 21, 1875 and recorded in Liber 118 of Deeds at page 450, Alameda County Records.

Subject however to the right-of-way over and along the fourteen (14) foot private Road mentioned in the above description which was heretofore granted to said C. H. Hatch.

Save and excepting therefrom, however, the following parcel of land set apart to Frank F. Faria and Adeline Faria, his wife as a homestead, which is a part of the above described premises, the same being particularly described as follows, towit:

Beginning at the point of intersection of the Southeasterly line of the County Road leading from Niles to Centerville, in Washington Township, Alameda County, California, with the Southeasterly line of Survey seventy six (76) of the Ex-Mission of San Jose; and running thence along the said line of Survey seventy-six (76) South 33 degrees 00 minutes West distant 647.06 feet to a point; thence leaving the said line South 57 degrees 00 minutes East distant 188.13 feet to a point; thence North 33 degrees 00 minutes East distant 646.48 feet to a point in the Easterly line of a private roadway fourteen feet in width; thence along the said line of said private roadway North 13 degrees 40 minutes West distant 139 feet to the intersection thereof with the said line of the County Road leading from Niles to Centerville; thence along the last said line South 75 degrees 33 minutes West distant 128.70 feet to the point of beginning. Containing three acres of land and being a part of the premises first above described.

Subject however to the right of way over and along the fourteen (14) foot private road mentioned in the above description, which was heretofore granted to one C. H. Hatch.

PUBLIC NOTICE is hereby given that I will on Monday, the 19th day of September, A. D., 1927, at Ten o'clock A. M., of said day, in front of the Broadway entrance of the Court House, of the County of Alameda, in the City of Oakland, County of Alameda, State of California, sell at PUBLIC AUCTION, for lawful money of the United States, all the right, title claim and interest of said defendant, Frank F. Faria, of, in and to the above described real property, or so much thereof as may be neecssary to raise sufficient money to satisfy said Judgment, with interest and costs, etc.; to the highest and best bidder.

Dated; Oakland, Calif., August 25th, 1927.

BURTON F. BECKER,
Sheriff, Alameda County, California.
By J. J. Hanifin, Jr.,
Deputy Sheriff.

E. H. CHRISTIAN, Esq.,
Attorney for Plaintiff.

The Nation Cannot Rely Solely on Airplanes for Adequate Defense

By CURTIS D. WILBUR, Secretary of the Navy.

THE uncertainties of the past in national defense must be done away with, so far as possible.

Progress is costly, but civilization is too precious for us to abandon the effort for security. Our liberties are too dearly purchased to be abandoned or jeopardized by indolence or indifference.

The airplane and its equipment does not furnish a cheap and simple solution of the problems of national defense. It has not rendered obsolete either armies or navies, guns, tanks or ships.

It has only added another essential element to the intricate equipment necessary to national defense against a well prepared foe.

It has added another element for quick transportation of machine guns, bombs and men, and a new method of attack by machine guns, bombs and torpedo. It has given a new method of intercommunication and scouting. It has added new peril to the enemy and a new source of defense to ourselves.

Expenditures for our navy are not a national loss in time of peace. The navy of the United States has become a great school or a great university for training of the men and officers.

The point, after all, is that there is no royal road for the security of the nation. That security must depend upon sacrifices made by the people of the nation upon a recognition of the facts concerning human life and human responsibilities, and a willingness to undertake the responsibilities incident to the advantages we have already achieved as a nation.

Too Many Philanthropies and Charities Working Injury to Character

By W. H. LANGSHAW, New England Manufacturer.

Riches are not essential to happiness. The majority of children are far more happy than most of us millionaires. The children have the whole secret of life's happiness. They know how to enjoy the simple things of life.

I do not believe in philanthropies or charities. Both tend to beggar. England always was a proud land and her people always have been proud, but enough injury has been done by the dole to make it almost as great a sorrow as the loss of her hundreds and thousands of lives. It has done much to destroy independence and character in countless thousands, and only time will correct this wound.

The unwilling workers of this generation are the result of paternalism. Nothing is worse than paternalism, either in the lives of people or in the functioning of the government. The raising of the age of the school limit has gone beyond where it registers as a benefit to mankind.

Boys and girls are made to go to school who do not wish to, but they want to work. When that is their desire, it should be granted. Not all the race is intended to be educated. Only a small percentage can use it. America's trouble is that she wants to educate every boy and girl, never taking into account that it would be better for most of them when they get to the proper age to be allowed to work and make their own way.

Mission of the Peacemaker Is Not Merely to End Quarrels

By MRS. R. C. DAWES, Federation Women's Clubs.

Modern biblical scholars tell us that the saying "Blessed are the peacemakers" does not refer to those who make peace between two parties who have quarreled. It means, rather, "Blessed are those who create harmonious relations." Such people prevent quarrels, instead of trying to stop them after they are begun.

So long as men have two fists and a quick temper they probably will continue to fight, but to say that because men fight, nations will always wage war, is jumping at conclusions. We are told that the next war will be so terrible that it may wipe out civilization itself. In any case it will destroy most of the people who wage it. Is it common sense to say, in the face of such a possibility, that it isn't worth while to consider other ways of adjusting difficulties between nations?

International relations to a system of highways, with the more backward nations having the poorest roads. The families of the nations are meeting on the highways of the world and nearly all of them are seeking to go about their business peacefully. Our problem is to keep the roads open and free, to prevent bloodshed when two nations meet upon them.

If the open road to peace is to be used by all the nations of the world, then every nation must have a part in its building.

Citizen Conferences Will Bring International Amity and Understanding

By DR. HARRY A. GARFIELD, Institute of Politics.

International amity and understanding depend on an enlightened citizenry rather than a revised government.

Why not stop tinkering with the machinery of government, when, by the simple device of citizen conferences we may accomplish all that is really desirable?

Conference, the educational method, is the most potent method the citizen can employ, because it dispels ignorance and drives out fear.

Six such conferences now exist in America to consider world problems and conditions. They are the Institute of Pacific Relations; the Institute of Politics in Chicago; a study of international politics at the University of California; a similar study at the University of Georgia, and a study of economic and social problems at the University of Virginia.

Each seeks to understand aims or ambitions, the needs and desires of peoples of different nations.

Parents Should Take More Interest in Education of Their Children

By MRS. FLORENCE V. WATKINS, Parents-Teachers Associations' Sec.

Education will not advance as it should until parents take a more active interest in it for the sake of their children.

Parents haven't played enough with their children. They have been censors instead of playmates. They should come down from their pinnacles, and become their children's pals. Parents, however, are more alive to the possibilities of training the child through the first six years of life.

Teachers are more sympathetically inclined to problems confronting the home. Communities have become more concerned in making conditions right for the child.

Peach growers of the Sutter pool in the Yuba City district now anticipate a return of between $30 and $32.50 a ton for their 1927 crop. This expectation is the only satisfaction the growers there have expressed since the settlement recently between the California Canning Peach Growers and the Canners' League of California. It is because the growers estimate that the California canning peach pack for 1927 will be 8,000,000 cases or less that they expect between $30 and $32.50 a ton.

California's 1927 rice crop will total about 4,100,000 bags, or an average of 25 bags to the acre, State and Federal statisticians estimated. The forecast placed the crop at 9,104,00 bushels, as compared with 7,986,000 for last year. While an increase is expected in California this year, it was pointed out that a slight production drop is anticipated in Louisiana, Texas and Arkansas.

The California potato crop this year is estimated as 85 per cent of normal by the State department of agriculture and is expected to total about 7,602,000 bushels, according to a forecast covering the early, mid-summer and late varieties. The report dealt with 52,000 acres, as compared with 43,000 devoted to potatoes last year.

Plans for organizing the Fresno Producers Co-operative Association, a county organization of farmers having as its purpose the fostering of a county-wide movement to market farm crops direct to the consumer, and fostering of a free market in the city of Fresno exclusively for producers, were announced last week by Melvin A. Anderson, Kerman farmer, who is chairman of the organization committee of the association.

Red spider is again making its appearance on prune trees of Colusa County, it is reported by Farm Adsiver V. C. Bryant, and growers are exhibiting much concern. In many cases, Bryant reports, trees have virtually been defoliaged. The pest is being combatted by spraying and watering. Bryant says that the presence of red spider is caused largely through the dry condition of the soil.

George S. Goucher, who has represented the California Cattlemen's Association in Modoc County for the past several years, is again directing the marketing operations of the Modoc County beef crop in anticipation of the early Fall shipments, which will begin shortly. While a good many beef steers in this section are now prime for marketing, the bulk of them will not be moved for several months yet.

Declaring that Tehama County land is ideally adapted to cotton culture, Harry von Tagen, president of the Valley Cotton Gin Company of Chico, was in Red Bluff last week making preliminary arrangements to lease several tracts of land for outside growers, and taking steps to induce Tehama County ranchers to plant cotton next year.

The Modoc County Fair, to be held at Cedarville, September 9th and 10th, promises to be one of the best exhibitions of agricultural products ever shown in the county. The premiums will be confined to stock, poultry and agricultural products. The fair is being given under the general supervision of the granges of Modoc County.

For the first time in history of the fresh grape industry in California price fixing will be attempted this year, as the outcome of a meeting at Kingsburg where approximately 600 muscat growers of Fresno, Kern, Tulare and Kings counties agreed unanimously to form a pool and sell their grapes for a minimum of $25 per ton. The growers approved a price schedule which advances the minimum to $27.50 per ton on September 10, and to $30 per ton after September 20.

Oakdale Kadota fig growers have decided to start picking the 1927 crop this week. Some growers could pick a few figs to advantage at the present time, but as the entire crop will be sold to the Plantation Canneries Company, Stockton, the local men plan to start picking at the same time to save shipping charges. Spraying for red spider is now in progress.

The greatest problem facing the cattle industry, is the elimination of the so-called cycles of high and low prices, according to Hubbard Russell, managing director of Western Cattle Marketing Association, San Francisco. "There has been a great deal of talk about a cattle shortage during the present season, but facts fail to reveal any considerable shortage in California or adjacent states; in fact, more cattle are being marketed in California this year than last," Russell declared.

All indications at present point to an early rice harvest in Colusa County. Notwithstanding the fact that the crop was planted late and the Summer has been fairly cool, the crop is two weeks in advance of last year, which was believed to have been an early harvest. Many fields at present are headed and will have the water turned off by September 1st. This means that harvesting operations in some localities will start about September 15th. The yield in Colusa County is expected to be twenty per cent heavier than last year, and good prices are expected.

Youthful livestock owners, members of school agricultural clubs and other San Joaquin valley students interested in agriculture, livestock and poultry, are being given particular attention by the junior livestock department of the twenty-first annual Fresno District Fair, September 26th to October 1st.

The hop harvest was on in full swing at Gerber, Tehama County last week at the three mills of the E. Clemons Horst Company. A bumper crop is being harvested, estimated at 2,250 bales of 500 pounds each from 260 acres.

The planting of milo maise was still in progress recently in the East-side section of Imperial Valley. Much interest is being shown in this crop because of the present high price, and the belief obtains that, owing to crop conditions in other sections, the high price is likely to hold. Early milo is already in head.

Rice on the 3000 acres north of Brawley, Imperial Valley, is showing up well. Late plantings are going through the hot weather in splendid shape. There was some fear that they would scald out, but every indication is that they will do creditably. The harvest will be thrown into October and November, when, under normal conditions, the harvesting weather should be ideal.

The total of all classes of melons grown and shipped from Imperial Valley in the 1927 season is 20,076 cars. Aside from this, truck loads of all varieties have steadily gone out, a quantity which cannot be accurately measured. In itself this constitutes a problem, for often enough truck loads have been dumped at one time on near Coast markets to seriously break the price.

The Lindsay district has openly declared war on birds, despite hundreds of letters of protest from all points which have pourned into this section. A bounty of 2 cents for each bird and a one cent bounty for each egg or bird-in-the nest is to be paid by the Lindsay Farm Bureau. In a recent discussion, growers pointed out that they had suffered huge losses from the pests the past year, and that unless they could rid of them next season the condition would be serious.

Twice as many entries as last year are expected in the livestock section of the Orange County Fair of 1927, which will be held on the fairgrounds north of Santa Ana September 5 to 10. Entries are coming from as far north as Vancouver, B. C. From the San Joaquin Valley are coming Poland Chinas, Duroc Jersey and Berkshire hogs by scores, while cattle are coming from various points. Livestock awards amount to over $6000.

With a top price of $11.55 featuring three sales held recently in the Visalia district by the California Farm Bureau Marketing Association, hog raisers of Tulare, Visalia and Hanford received nearly $27,000 for their consignments. A total of fifteen cars with 1380 hogs consigned by 104 raisers, and twelve cows, one steer and six calves from sixteen consignors was involved in the sales in the three cities. The hogs brought $26,937.90 and the cows and calves $626.50.

An examination of sheep in the vicinity of Kings City by veterinarians of the California department of agriculture has revealed an infestation of sheep scab in approximately 2300 sheep in one band. The examination was made at the request of the Bank of Italy of Kings City and following instructions from the department, a vat was constructed and the entire band dipped. This is the first scabby band of sheep reported in California for a number of months, the department stated.

Indicating that this year's county fair at San Diego will establish new records for quality and quantity of exhibits, it was announced by officials that fruit and vegetables to be placed on display already are being received. Because of the fact that the fair does not open until September 13, next, the fruit and vegetables are being stored without cost in plants of the Union Ice Company, 140 West Island street, and the San Diego Ice and Cold Storage Company 825 Imperial avenue.

CALIFORNIA NEWS BRIEFS

The University of California is planning one of the largest programs of research ever before attempted during any one year, to be carried out between now and May 1928. An appropriation of $85,000 has been voted by the Regents for this purpose, and an exceptionally large fund from endowments and gifts is now available.

The number of attractions offered by tourists as their reason for coming to California grows more lengthy every day. A graduate student at the University of California, sent from England as a Comonwealth Fellow, says that California has the best display of dead volcanoes of any state in the Union, without mentioning the fact that it has the only living volcano in the country, excepting Alaska. The students name is Howel Williams and he is spending two years in California and Hawaii, studying volcanoes in the making in order that he can go back to England and study the scarcely distinguishable cones in the island kingdom.

A concerted drive to lower the death rate resulting from automobile accidents by instituting a uniform traffic ordinance throughout the State is being urged by women of the State in co-operation with the California Development Association and the State Chamber of Commerce. The uniform traffic ordinance, evolved by the women of California after a careful survey of the State's traffic situation, and drawn up under the supervision of the California Automobile Club of Southern California, is expected to meet all basic requirements of traffic and do away with the multiplicity of conflicting laws encountered in motoring from one end of the State to the other.

Seven motor tow-boats, three speed boats and two barges, practically the whole fleet of the Island Transportation Company of Stockton, were destroyed by fire last week with a loss of $200,000. The boats were anchored close together in Smith's canal, a mile beyond the city limits of Stockton, and the flames swept rapidly from one end of the fleet to the other.

One of the largest mountain lions ever seen in the Glenn county section was killed by Fred Haines of Lodi while hunting on the Middle ridge in the coast range. It measured over 9 feet from tip to tip. Haines came upon the animal while looking for deer. The first shot went over the lion, but his second struck it in the neck as it sought to bound away and killed it instantly.

The dove season will be the next hunting season to attract the attention of gun pointers. The season opens on September 1, practically throughout the State. Pete Peterson, hunting and fishing authority declares that the season should be an exceptionally good one as the game is more plentiful than it has been in several years.

Efforts to have Mather Field, wartime training camp for aviators near Sacramento, included in the national aviation program as a center for military and commercial aeronautics, are being renewed by Sacramento civic leaders following inspection of the airport last week.

A new movement in the way of plans for a bridge from San Mateo county to Alameda county was made last week when Colonel Frank Elbridge Webb, who has been active in the matter for some time, printed a legal notice that on October 2 he would apply for a franchise for a bridge from Candlestick Point to Alameda.

Revision of the United States Census questionaire on agriculture to include questions more applicable to California's irrigation, land development, power problems, and special crops, such as prunes, apricots, walnuts and so forth, was assured at a conference arranged by the California Development Association between the California Economic Research Council and Dr. Oliver E. Baker, economic anaylst of the United States Department of Agriculture, it was announced at Sacramento last week.

A spectacular water regatta and carnival will be held in Stockton on October 1 and 2, according to the board of directors of the Stockton Chamber of Commerce. Speed boat and yacht owners from all cities in the San Francisco Bay region and contiguous inland waterways, will be invited to participate.

Claiming he stands 6 feet 8½ inches in his stocking feet and that his twin brother is just as tall, E. E. Dickey of 4627 Hollywood boulevard, Hollywood, last week entered the State Fair contest to determine the tllest man in California. Dickey set a new high mark in the contest, which will be settled in Sacramento the week of September 3-10. Prior to this entry the high man was Joseph Lowery of Oakland, 6 feet 8 inches .

Mrs. Freda Springer last week received the first penitentiary sentence ever meted to a woman in the San Francisco district, for violation of the federal still law, when Judge A. F. St. Sure committed her to a federal prison to serve one year and one day.

One hundred and ninety-two oil wells have been spudded in this year in the various fields of Kern county, according to the report of State Oil and Gas Supervisor R. D. Bush. Last week three new wells were begun, one of them in the Wheeler Ridge district and the others in the Kern River field.

An earthquake of pronounced intensity occurred at Eureka last week. Buildings were shaken and windows broken. Several women fainted. There were no fatalities. Communication lines were put out of operation for a considerable period. The tremblor was the most violent experienced in that section since 1906.

Some 50,000 San Francisco school children will assemble in the Civic Center to greet Colonel Charles A. Lindbergh when he visits San Francisco September 16, according to plans formulated. Board of Education officials acceded to the request of Mayor Rolph and Supervisor Jesse Colman, chairman of the committee planning the reception, in planning to release the school children from their classes in time for them to attend the public reception.

The State law prohibiting the use of automobiles lighted by means of current derived from a magneto will become effective after the stroke of midnight August 31; motorists were warned last week by the State division of motor vehicles. The statute against use of magneto-lighted cars at night was passed by the Legislature four years ago, but held in abeyance until September 1, 1927, to give car owners a chance to alter lighting equipment.

Recommendations that every California city arrange for the painting of its name in large letters on the roof of its highest building as a guide to aviators were made to Governor C. C. Young last week in a letter from Secretary Hoover. Governor Young, it was announced will place the matter before the California League of Municipalities at its annual meeting scheduled in Sacramento next month.

Lions and Kiwanis of Tulare and Kings counties will stage a joint club day during the Tulare county fair in Tulare, September 20-25, according to plans launched by Tulare Lions at last week's session. Such a club day drew several hundred Lions and Kiwanis during the fair. September 20, opening day of the fair, has been set as the date for the meeting.

Mantillas and sashes are being dug from the bottoms of trunks, beards are sprouting, players are rehearsing—all these in preparation for the Serra pilgrimage to be held in Monterey September 9, 10, and 11.

The new transcontinental airplane express service, to be inaugurated this week by the American Railway Express Company, will transport express matter between Sacramento and Chicago in twenty-two hours and between Sacramento and New York in about thirty hours.

Factory employment in California showed a decline of 3.8 per cent during July, 1927, as compared with July, 1926, though the payroll was less by only 1.9 per cent, as shown by the monthly bulletin of the division of labor statistics and law enforcement of the department of public relations. Seven hundred and thirty-six representative industries were shown to employ 135,148 workers, having an average weekly wage of $27.33, as against $26.80 a year ago.

The Morris Plan Company of San Francisco, the People Finance and Thrift Company of Los Angeles, with branches in many California cities, and other kindred firms operating in California, were last week ordered by State Corporation Commission J. M. Friedlander to discontinue temporarily the issuance of so-called thrift certificates on the grounds that loans made under this system are usurious. The order was issued following a hearing of certain loan companies.

Is there a petrified forest in Shasta County? That question was raised at Viola, Shasta County, when Frank Herbeck of the Pacific Gas & Electric Company brought to the Loomis museum several hundred pounds of petrified wood and said there is a whole tree of it at Kilare. Herbeck was six hours in getting a piece of the wood 3 feet in diameter. There are lots of petrified trees in the vicinity but they have not been uncovered by erosion, according to Herbeck. He says he saw the limbs of a petrified tree sticking out of a cliff on Pit River.

Provided enough old cars can be assembled for the big bonfire to be held shortly under the auspices of the Marysville Auto Dealers' Association, Yolo County, as a means toward getting rid of a lot of wornout and decrepit cars, a moving picture concern will send agents there to make films on the event. The fire is expected to be one of the largest of its kind ever held in California. The movie company has asked that the bonfire be held a little before sundown, in order to get a night effect. The fire will be a blow to junk dealers who now purchase and dismantle.

Kern county's tax rate may jump to $1.60 this year on the outside rate from $1.25 for every $100 valuation if tentative budgets as published by the board of supervisors are approved by the board. These figures are unofficial estimates. Last year the tax rate was $1.25. This year the supervisors plan on a 20-cent road tax and a 5-cent additional tax for maintenance. These increases in themselves would bring the tax rate up to $1.50.

The nineteenth annual conference of California health officers, in conjunction with the annual convention of the League of California Municipalities, will be held in Sacramento during the week beginning September 19. The State Board of Health announced that practically every health officer in the State is expected to attend.

Art Goebel, winner of the $25,000 first prize in the Dole flight from the mainland to Honolulu, is done with stunt flying and risking his life unnecessarily. He made this clear last week, just before sailing from Honolulu for San Francisco.

NO LABOR SHORTAGE

The movement to get congress at its next session to loosen up our immigration laws is coming in for renewed attention just now, since those back of the movement contend that strict laws like we now have are "hurting the farmer." And we note in our exchanges that a number of editors are taking stock in this argument, and printing the publicity being sent out. For our part, we believe the plan to throw open our gates to a greater number of immigrants than the law now provides for is a scheme hatched by certain interests that seek only a cheaper labor than they are now getting. The plea is a selfish one, if the truth were known, and not in the interest of those for whom the men behind the movement pretend to be pleading. The Amreican workman is entitled to protection, and under the present immigration laws he is getting a fair share of it. The farmers themselves are not doing any great amount of protesting or complaining. Until they do congress will hardly be justified in listening to such pleas from any other source.

Will Mrs. Ester Meidell, Norwegian housewife, who claims to be able to feed a family well on $25 a month, and doesn't have to save the bread crumbs for puddings, kindly send us a postal card and tell us how she does it? Perhaps this is only another of Ester's April fool jokes, but no matter, we'd like to hear how all the family are, anyway.

Nothing would improve the lot of some of our Washington Township girls more than to build good houses on them and put good husbands inside for them.

THIS AND THAT

Secretary Hoover advises caution about making loans to Europe. It is excellent advice, and only about $11,000,000,000 late.

Our best advice to citizens who want to stop the mouths of gossips is to stop their ears to gossip.

If you have a weak will it always shows up in the presence of a solicitor for lodge membership.

Fathers find it is far more economical to have a daughter so homely she is not running down to a high-priced photographer to have her picture made every few weeks.

In defense of Niles women we want to say that any man is a brute who expects his wife to wear a smile and last year's dress at the same time.

Two things an old married man is sure to know is that two can't live as cheaply as one and two can't drive a car as efficiently as one.

You'd never dream from giving a clothesline the once-over that it costs about five times as much now to dress a woman as it used to.

The girl who has a soul above skillets generally has a mind below the average.

One thing every man in Washington township is sure of, and that is that he would be the most liberal man in town if he was only rich.

An old-timer is one who can remember when domestic science meant cooking meals instead of opening cans.

We can hear the old Pacific saying along about now: "Anybody can fly across the Atlantic, why not try to fly across a regular ocean."

A Nebraskan has invented a trac- Who can remember when even a lightning rod agent was invited to stay at any farm house around here he happened to be near at mealtime?

The way to treat spring fever is to elevate the feet, close the eyes, open the mouth and say "z-z-z."

Last Day for Low Fares EAST

You can still go east at low cost. Summer reduced roundtrip fares are good for return until October 31. Plan to go now and profit by them.

A choice of routes and trains matched by no other transcontinental railroad. For example: you can reach Chicago in 63 hours from San Francisco aboard the deluxe *San Francisco Overland Limited*. Return the same way if you wish; or come back via New Orleans and Los Angeles on *Sunset Limited*, or Golden State Route via El Paso and Los Angeles. It costs no more via these routes, and only slightly additional via Pacific Northwest and the spectacular Shasta Route.

Note the low roundtrip fares quoted here; similar fares to many other places.

NOTICE TO CONTRACTORS

OFFICE OF THE CLERK OF THE BOARD OF SUPERVISORS OF ALAMEDA COUNTY, CALIF.

SEALED BIDS will be received by the Clerk of the Board of Supervisors of Alameda County, California, at his office until Monday, September 12th, 1927 at 10:30 o'clock A. M. (the day when said bids will be opened and said contract awarded) for the construction of a wire fabric and galvanized barb wire fence and appurtenances around the four sides of the Niles Corporation Yard near Niles, all in Washington Road District, Washington Township, Alameda County, California.

Plans and Specifications for said work are on file in the office of the County Clerk of Alameda County in the Hall of Records Building in the City of Oakland, County of Alameda, State of California, where copies may be obtained by depositing with the County Clerk, the sum of Twenty-five ($25.00) Dollars.

Contractors will be restricted as to the length of time they may retain said Plans and Specifications to fifteen (15) Days.

Deposits of Contractors failing to return said plans and specifications within said fifteen (15) day period, will immediately become forfeited to the County of Alameda.

Each bid must be accompanied by a check for at least ten (10%) per cent of the total amount of the bid or proposal, certified to by some responsible bank and made payable to Geo. E. Gross, Clerk of the Board of Supervisors, to be forfeited to the County of Alameda, as agreed and liquidated damages should the party or parties to whom the said contract shall be awarded fail to enter into the contract after the award or give the bond required by the Board for the faithful performance of the contract.

The Board of Supervisors reserve the right to reject any and all bids.

GEO. E. GROSS,

Clerk of the Board of Supervisors of Alameda County.

Present-day smokers find their sheerest enjoyment in Camels

THE people of this age spend millions for the good things of life. And they place Camel first among cigarettes.

Modern smokers make money, but when they spend it they insist on quality, and more people today buy Camels than ever bought any other cigarette.

Camel value has won the modern world. Money cannot buy choicer tobaccos, nor a more glorious blending. That's why increasing millions in the modern age single out this famous smoke as their favorite. You, too, will find it yours.

"Have a Camel!"

Reflections

One Picture is Worth a Thousand Words

According to an old Chinese proverb, but a thousand words on a Fire Insurance Policy written in this agency is worth more than a hundred pictures of your property, **after the fire.** But we only insure property **before** it burns. See us today, tomorrow never comes, but a fire may.

The Objector

At a recent conference, held on high Olympus, it was decided to organize a thrift campaign among the immortal gods. The vote was overwhelmingly in favor of the measure, only one deity standing out in opposition.

The solitary objector, known to Olympians as Jupiter Pluvius, was later interviewed by the reporters.

"Personally," he explained, "I never ... the sense of putting any... a rainy day."—Kansas

With Township Women

Continued from Page One

tember 12, at which time members will enjoy a reunion and a basket picnic.

Mrs. James R. Whipple, chairman of Toyon branch, announces that no definite program for the next year has been mapped out but that a tentative outline of activities for the winter will be outlined at the next meeting.

For many years the women of the Baby Hospital Association have carried on their work under great difficulties, but they now feel that the day is near at hand when the new hospital at Oakland will be formally opened. Work on the building is progressing rapidly and it is expected to be one of the best equipped baby hospitals in the west.

The Christmas bazaar will be held on the afternoons and evenings of December 9 and 10 at the Hotel Oakland.

Mrs. Eugene Billett is general chairman of arrangements and the various branches will have attractive concessions at the bazaar. This event is always one of the outstanding of the holiday season and elaborate preparations are being made for this year.

The branches of the Baby Hospital Association and their chairmen are as follows: Acacia, Mrs. Henry A. Bowers; Cherry Blossom, Mrs. I. R. Aiken; Elderberry, Mrs. Everett Northrup; Elmwood, Mrs. Harold Sawyer; Garden, Mrs. A. C. Keane; Linden, Mrs. Henry Guerin; Maple, Mrs. Edwin Edgerton; Pine, Mrs. W. A. Sargent; Redwood, Mrs. P. C. Sanford; Sequoia, Mrs. T. E. Barnes; Hawthorne, F. Eugene Barton; Heather, Mrs. William C. Fuller; Hill, Mrs. H. H. Patterson; Holly, Mrs. W. S. Weeks; Laurel, Mrs. George Weir; Toyan, Mrs. James R. Whipple.

NATIVE DAUGHTERS GIVE BENEFIT CARD PARTY

Laura Loma Parlor, No. 182, of the Native Daughters of the Golden West will give a card party, Tuesday evening, September 6, at 8 o'clock, at the Odd Fellows Hall in Niles, for the benefit of the various projects assisted by the organization. The public is cordially invited to be present. Prizes will be offered and refreshments will be served.

Miss Gertrude Keller is president of Laura Loma Parlor and Mrs. J. Cahill, Mrs. M. Fournier and Mrs. Herbert Roland have charge of arrangements for the card party.

Frequent calls are made upon the Native Daughters for their financial aid and funds thus used are raised by benefits such as the entertainment planned for next Tuesday evening. One of the last calls answered was from the Mississippi flood sufferers.

* * *

EAT, DRINK AND BE MERRY AT CHURCH SUPPER

Everybody who is interested in the success of the Niles Congregational church is urged to be present at the family dinner to be held at the church on the evening of September 9, at 6:30 o'clock, this to be the first of such monthly meetings for the winter.

Dinner is furnished by those who attend and any wishing information as to what they should bring may call Mrs. A. A. Hatch or Mrs. E. A. Ellsworth, the menu for the evening being as follows:

Macaroni or spaghetti with cheese or hamburger
Cold meats
Vegetable salad
Rolls and coffee
Applesauce and cake

Now who could resist it? Doesn't sound a bit like the old story they used to tell about the two lonesome oysters in the tub of soup at the church supper, does it ?

In addition to the above-mentioned most excellent bill of fare there will be an evening of good cheer and a program as yet in the making under the direction of Mrs. J. E. Townsend. Mrs. H. Roland will have charge of the "welcome" committee and I'm sure she'd like for me to say that everybody is welcome. Just call up Mrs. Hatch or Mrs. Ellsworth and see what would be the best part of the "eats" for you to bring, and I'm sure the pleasure of the occasion will far outweigh the effort necessary to enjoy it.

I wonder if it would be amiss to drop a gentle hint to that great mass of the population who are willing to "let George do it," that if everybody did as little as somebodies do toward making the church or the Parent-Teachers and such organizations a success it would be a matter of a few weeks until there wouldn't be any.

One of the ladies actively interested in both the above-mentioned bodies told me this week that she had asked various persons to become interested in making the community a better and happier and safer place in which to bring up our children and had been met with the usual excuses.

"Would you be willing for us to close up the church and do away with it entirely because we could not get enough interested people to keep it going?" she asked.

"Oh, that will never happen," this placid soul replied. "There'll always be somebody to keep it going without me."

Now if you'll excuse a little slang, can you beat it? Speaking of the grand and noble art of passing the buck, doesn't that take the prize?

* * *

MRS. THANE ENTERTAINS

Mrs. J. E. Thane, Mrs. W. H. Ford and Mrs. James R. Whipple of Niles entertained last week in honor of Mrs. Waldner of Mafi who is visiting her mother, Mrs. Richard Hunt. Guests included Mrs. Anderson of Irvington, Mrs. F. N. Hudson, Mrs. A. A. Hatch, Mrs. H. A. Mosher, Mrs. Kirk, Mrs. Emilie Chittenden, Mrs W. H. Ford, Mrs. Robert Fisher, Mrs. Clarence Martenstein and little Miss May Martenstein.

COUNTRY CLUB LUNCHEON EAGERLY ANTICIPATED

Interest among local club women is centering just now upon the annual gala day, the opening luncheon meeting of the Country Club of Washington Township to be held at the club house in Centerville on September 13, at 1 o'clock.

Mrs. George Mathiesen, chairman of music, is arranging a program which will be announced in next week's Register.

Mrs. E. A. Ellsworth, chairman of the luncheon committee, and her assistants, will have charge of the decorations, table arrangements, etc., a profusion of fall flowers to be used to carry out a rainbow motif. Mrs. Ellsworth requests that all reservations be made immediately. It is also stated in this connection that those making reservations shall be responsible for them even though circumstances may prevent their being present. A cateress from Oakland is being employed and the amount of expense will be based upon the number of reservations made, hence the necessity for individual members seeing that all reservations are settled for.

Guests of honor will be the presidents of various organizations throughout the bay section.

Last year 87 members of the club and their guests attended the luncheon meeting.

* * *

DO YOU KNOW WHERE YOUR HOME IS? ASK P.T.A.'S

Just another reminder about the Parent-Teacher meeting at the Niles Grammar school next Tuesday afternoon at 2:30 o'clock. Mrs. E. A. Plumb, president, will have charge and all parents who have children in the Niles school are urged to be present at this first meeting to help with suggestions concerning the year's work.

It is requested that everybody "talk up" the card party to be given by the Association on September 16. Funds received from this benefit will go toward financing the school cafeteria and other projects of the organization for this winter.

Did you ever hear of the woman who wouldn't join the P.T.A.'s because she believed it wrong to go to club meetings, proclaiming vociferously that woman's place is in the home? And as the Irishman would say. "Shure, it is," only home nowadays means, not the four walls within which one eats and sleeps, but the house universal; and women still have to do most of the housekeeping at that. Of what will it avail to keep your own particular and private cottage or castle 100 per cent, if the streets and the alleys are contaminating? What good to root up the wild mustard in your garden when your neighbor has acres of portentous seeds awaiting an evil wind? You spend most of your time in your "house," but the home of the young people is the community. Only cooperative "housekeeping" will accomplish cleanliness, beauty and happiness. The Parent-Teacher Association is a clearing house for many of the problems of the woman whose place is in the home.

* * *

PERSONAL MENTION

Mrs. Emilie Chittenden and Mrs. Lulu Stoops spent Wednesday in Oakland attending the circus, and also bidding farewell to Mrs. Maggie Bell of San Francisco, who sailed for Honolulu.

Mrs. James Fallon of Stockton visited Niles friends reecntly.

Mrs. O. E. Walbert of Niles visited her sister in Oakland last week.

Mrs. Robert Blacow is spending a vacation at Sutter Creek.

Mrs. Florence Robinson and Mr. and Mrs. George Faber of Oakland were recent guests of Mr. and Mrs. Lester Duffey.

C. E. PLANS ORGANIZATION

A preliminary meeting of the Christian Endeavorers of Niles was held last Sunday evening to discuss the details and methods of reorganization of that institution. The chief decisions arrived at were:

1. To change the time of opening to 6:30 with a closing by 9 at the latest.

2. To divide the evening's activities into four phases—Devotions, Recreation, Refreshments, Fireside Talk.

3. To have a Rally meeting on September 11th and to visit the Decoto C. E. next Sunday evening.

Those selected to take charge of the Rally meeting were: Dick Amyx, devotional leader; Frances Habenicht, recreation; Gertrude Ellsworth and Bob Amyx, refreshments; Mr. Seebart, fireside talk.

Two sponsors were elected for the year, namely, Mrs. H. Roland and Mr. A. W. Seebart.

Most any township married man can tell you that it's useless for him to be right if his wife thinks he's wrong.

Who won the gasoline war may be an unsettled question, but there is no question at all about who will pay for it.

Some of us can remember the time when it was possible to tell when a print shop was busy by the condition of the towel.

We have noticed that most problems in this nation's political families can be solve dby "pie."

We think every Township man should have his photograph made at least once after reaching maturity. Then his grandchildren will be sure of having something to laugh at.

WOMEN CAN NOW DO MORE

Because Lydia E. Pinkham's Vegetable Compound Keeps Them Well

Fifty years ago there were few occupations for women. Some taught school, some did housework, some found work to do at home and a few took up nursing.

Today there are very few occupations not open to women. Today they work in factories with hundreds of other women and girls. There are also women architects, lawyers, dentists, executives, and legislators. But all too often a woman wins her economic independence at the cost of her health.

Mrs. Elizabeth Chamberlain who works in the Unionall factory making overalls writes that she got "wonderful results" from taking Lydia E. Pinkham's Vegetable Compound. Mrs. Chamberlain lives at 500 Monmouth St., Trenton, N. J. She recommends the Vegetable Compound to her friends in the factory and will gladly answer any letters she gets from women asking about it.

If Lydia E. Pinkham's Vegetable Compound has helped other women, why shouldn't it help you?

So It Is

"Did you ever visit the museum?"

"No. It never happened to rain as I passed it."

As We Grow Older

Proper Kidney Function Is More Than Ever Important.

AS we grow older, there is apt to be a gradual slowing up of bodily functions.

The kidneys are the blood filters. If their action becomes sluggish they do not thoroughly cleanse the blood of poisonous wastes. This tends to make one tired and achy, with often a nagging backache, drowsy headaches and dizziness. A common symptom of imperfect kidney action is scanty or burning excretions.

Elderly people recommend *Doan's Pills*. This tested diuretic is endorsed the country over. *Ask your neighbor!*

Shakespeare's Writing Tells of Fatal Worry

None of Shakespeare's works in the poet's own handwriting are now in existence, but there are in existence books which belonged to Shakespeare and in which he wrote. These two conclusions have been reached by Dr. Samuel A. Tannenbaum, Shakespearean authority. Doctor Tannenbaum has made a close scrutiny of the six indubitable specimens of Shakespeare's handwriting; the three signatures in the will in Somerset house and on the three documents, one on each at Guildhall, British museum, and public record office. He demonstrates that the poet's handwriting shows characteristics that belong to sufferers from angina pectoris, and that the poet died of this disease, brought on, probably, by domestic worries, his younger daughter having married a man unworthy of her.

Passport Photos Must Resemble Applicants

Proof of the vanity of some women is often furnished in the New York customs house by passport applicants, according to Frederick Tisdale in an article in Liberty. The author quotes an official of the New York passport office who says, "We are often amused by some of the photographs submitted by older applicants. A woman of fifty will bring in a photograph copied from a picture made when she was in high school. We explain tactfully that the photo is necessary for identifying the passport holder, and we are forced to point out that the applicant resembles the earlier picture only vaguely after all these years. Sometimes they regard our attitude as a personal offense."

Evil Eye on Crops

Women dragging plows through the first furrows in the fields to prevent evil spirits blighting the crops may be seen within short distances of Moscow.

Idolatrous worship and superstitious practices continue almost within the shadow of the Moscow universities, according to a report by the ethnographic department of the commissariat of education.

The god o hens is still placated with special offerings in villages close to Moscow, wizards are asked to cure illnesses by applying toads to the skin of the sufferer, quacks and voodoo men conduct a thriving trade, and many other dark and dismal magics persist, in spite of the active educational work of the government.

Truth About the Petrel

For centuries mariners believed that the petrel never approached land, and that it laid its egg at sea and carried it about under one wing until it hatched. Not long ago, however, a party of explorers found a small petrel laying its egg under the soft soil of an isle of the Cape Verde archipelago, instead of carrying it around under its wing. The Cape Verde isle of Cima, which is uninhabited, is covered with the tiny bones of millions of petrels, which in ages past have come there to die.

A Changeable Animal

An animal which can change into another animal and then back to its original form is the startling discovery announced by Dr. Martha Bunting of the zoological department of the University of Pennsylvania.

The "animal" is one-celled, resembling a minute drop of jelly, and belongs to the amoeba family. It can transform itself into a complicated flagellate, Doctor Bunting declares, and then effect a retransformation back to its amoeba state.

Girl Inventor Honored

In recognition of her ability as an inventor, the Russian government has engaged Miss L. Y. Palmen, a Russian girl, as engineer-constructor. She is one of the few women in the world to win distinction in her field. She recently perfected an airplane engine which develops 20 horse power and is specially adapted to the requirements of the All-Russian conference of aerial and chemical defense.

VELVET HATS REIGN IN FALL; LEATHER COAT FOR MOTORING

HAVE you ever felt the urge to own a hat that you could pull on your head in any sort of a way and have it becoming? Well, many of the little new crushable velvet shapes, so smart for early autumn wear, are just that way—the sort one can just slam-bang on the head and feel that it is all right.

And here is just such a hat arrived from the atelier of Madame Agnes, the well-known Parisian creator. North, East, West, South, coming or going, it is all the same to this little hat. It can be worn with debonair smartness and ease, any way you put it. See for yourself, for the picture shows it below in this group worn in three different ways.

Some Fall Millinery.

Your mood changes, you want a different bonnet: very well, you simply turn it around to please. Being fashioned half-in-half of Yale and gobelin velvet this works out beautifully. By the way, colors are used so often this season in two and more tones of the same. Dark gray with silver, browns of varying degree, and the smartest combination at the moment is beige with black. Beige is immensely popular for fall.

But to continue about this accommodating little hat, if the vagabond spirit gets you, pull one of its cute brimlets down on the side and dent the crown as shown in the lower left corner of this group.

Change your mood—around the hat goes with the wider part of the brim turned up, and you have an exceedingly smart looking cloche with the crown, folded slightly down the back, fitting the head snugly, the dark-toned velvet to the face, as shown to the right.

Another mood—you want a different bonnet. Turn it all way round, as per center view. Pull the crown down on one side with the littlest rim in front. Almost forgot to mention that being made of softest silk velvet, this hat will roll up so that you can pack it away in the corner of your week-end case.

The other two hats exploit the idea of self-trim. One uses smocking for decoration, the other employs an applique of handmade velvet flowers designed in several colors which blend with the hat itself.

Fortunate is she whose privilege it is to go a late vacationing, not only from the pleasure standpoint, but from the clothes phase as well. Choosing an autumn vacation wardrobe is quite inspirational, considering that everybody is in the zest of things new, with fall style exhibits vying with each other as to which can display the more beautiful apparel. One has the satisfaction, too, of knowing that clothes bought now will be timely even after return from the vacation jaunt.

Of course no up-to-date woman is going to be contented to start on a motoring trip without providing herself with one of the new stunning leather coats which are so enlivening to the autumn landscape. They're thrilling when it comes to "looks" and as to service, well, every one with a far-seeing eye to practicality should own a leather coat.

The imported models are very alluring. They have that indefinable something in niceties of detail and coloring which proclaim their foreign origin, and the higher-grade shops all carry them. The original of the one in the picture is a marvel of fine coloring, being of violet leather trimmed with snakeskin. It is topped with a hat of leather in the same tone.

However, blacks, browns, wine shades and greens prevail both in foreign and domestic models. These coats are in the main confined to regulation straight smart lines with patch pockets, belts and with wool linings in sports effects. Copies of imported models are very attractively priced.

So much for the motor-travel coat. As to the hiker, the skater and every outdoor enthusiast who must have freedom of limbs, the short leather types are of greater appeal. Linings in these are sometimes wool and sometimes sateen, according to their price.

Now that the football season is nigh, leather coats are taking on an irresistible lure for college girl and debutante, and you may be sure that they will make their appearance most colorfully in great numbers.

For Hiking or Motoring.

Leather lumber jackets with knitted bands are popular with the younger set, also for juniors and children.

JULIA BOTTOMLEY.

(©, 1927, by Western Newspaper Union.)

HOW TO PREPARE CHICKEN SALAD

Considered One of the Most Delicious of Dishes.

(Prepared by the United States Department of Agriculture.)

"Again she ordered chicken salad," runs the somewhat threadbare joke told about the girl who never knew what to ask for when she was entertained in a restaurant. She needn't, however, have been embarrassed at her selection, for good chicken salad is one of the most delicious dishes ever put together by an accomplished chef, and choosing it merely indicated a discriminating taste. Many people, however, order chicken salad when away from home because they seldom have it on their own tables. It seems like an elaborate and difficult combination, and perhaps because it is frequently served at wedding and other receptions, seems like too expensive a dish to set before the family. As a matter of fact, chicken salad might be enjoyed much more often in our own homes if the homemaker, fortified by a good recipe, realized also that about one-half of the bulk of the salad is made up of celery.

The United States Department of Agriculture gives the recipe below:

Chicken Salad.

A fowl weighing 5 pounds or 2 smaller fowls
3 bunches celery
1 cupful mild vinegar
2 slices onion
Salt
Mayonnaise dressing
Lettuce

Simmer the chicken until tender in a small quantity of water. When about half done, add a teaspoonful of salt. Let it cool in the broth. After the chicken is cold, remove the skin, strip the meat from the bones, and cut it into small pieces of even size. In the meantime allow a few slices of onion to soak in a cupful of mild vinegar to give it a slight onion flavor. Remove a cupful of chicken fat from the cold broth and mix with this vinegar. Pour this mixture over the chicken, adding more salt and vinegar if needed to season it well. Let this stand, or marinate, for several hours or over night. Cut the celery stalks and some of the tender leaves in small pieces and let it stand in a cold place until it is crisp. Mix enough thick, well-seasoned mayonnaise dressing with the chicken to coat the pieces well. Shortly before the salad is to be served, add the celery and more mayonnaise if needed. Add still more salt if needed.

COTTON MATERIAL FOR STREET WEAR

Can Easily Be Laundered at Home and Does Not Fade.

(Prepared by the United States Department of Agriculture.)

The printed cotton material of which the dress in the illustration is made is soft in texture and smooth in finish. It can be laundered easily at home, it does not run or fade, and it is inexpensive. The trimming materials used are also washable. The bureau of home economics points out that the design of the fabric, a navy blue and white print, is sufficiently conservative for street wear, and the style chosen is suited to a medium sized or stout figure. White bias binding and a white lawn vest give a smart finish and emphasize the up and down lines of the dress. A wide plait extends from the shoulder to the bottom of the skirt to give ample room for walking and sitting without increasing the apparent width of the skirt. An oval buckle finishes the belt and harmonizes with the large white pearl buttons and with the pattern of the material.

A Good Cotton Material for Street Wear.

FRUIT JUICES WELL SUITED FOR VINEGAR

Suitable Receptacles for Making Vinegar at Home.

(Prepared by the United States Department of Agriculture.)

Many fruit juices are well suited to vinegar making as they contain sugar in the proper proportion and other necessary or desirable substances, says the United States Department of Agriculture. Vinegar is the result of two distinct fermentation processes—an alcoholic fermentation followed by an acetic fermentation.

Apples are most commonly used in the United States, but vinegar of unexcelled quality can be made from grapes, and very acceptable vinegar is made from oranges, peaches, persimmons, pears, berries and watermelons. Vinegar made from red raspberries will retain indefinitely the odor and flavor of the fruit, which makes it desirable for flavoring foods and beverages.

Much Fruit Wasted.

Fruit enough to make all the year's supply of vinegar is wasted in many homes. Surplus or inferior grades of fruit not desired for immediate use for canning may often be turned into a useful product at a merely nominal cost. The best receptacles for making vinegar in the home are stone jars of three to six-gallon capacity. These should have straight sides and open tops and should be provided with covers. With most fruits used it is impossible to separate the juice from the pulp before the alcoholic fermentation has taken place, so a yeast inoculation is made in a mash of the fruit. The juice only may be used if it can be extracted easily. The following method, which calls for peaches, may be used, with slight variations, for any fruits:

Ripe fruit is selected. Overripe fruit may be used if decayed portions are removed. Enough peaches are used to fill a 4-gallon jar about two-thirds full after they have been cut in two and crushed with a potato masher. The stones need not be removed. Mix a cake of compressed yeast with a small portion of the juice and add it to the mash. Cover the jar with a double layer of cheesecloth to keep out insects, and a cover to exclude light. Stir the mash daily. In four to six days alcoholic fermentation will be complete.

Juice Is Separated.

The juice is then separated from the mash by straining it through a cheesecloth, or using a hand press at the last. Return the juice to the jar with a starter in the form of vinegar. Use one part of the vinegar to four parts of juice. Cover as before. Within a few days a thin coating or film will appear on the surface. This "mother of vinegar," which is composed almost entirely of acetic bacteria, is essential for a successful fermentation. Great care, therefore, should be taken not to cause it to fall by stirring or agitation.

During the acetic fermentation frequent tests should be made to determine the increase in acidity. As soon as this has reached its maximum, the vinegar is filtered and bottled. Canton flannel is a good material for filtering vinegar.

Strength of Vinegar.

The strength of the vinegar can be determined roughly by tasting. When vinegar reaches a point where it is comparable in taste to that of a good strong vinegar, it may be regarded as complete. For accurate results a vinegar tester, in which the strength of the vinegar is determined by the volume of gas given off when bicarbonate of soda (baking soda) is treated with a measured quantity of the vinegar to be tested, should be used. Farmers' Bulletin 1424 on "Making Vinegar in the Home and on the Farm" gives a full description of this apparatus.

CHARLOTTE ALEXANDER

MAXINE DICKS

Photos by International

TREHAWKE DAVIES

ADRIENNE BOLLAND

RUBY THOMPSON

Underwood & Underwood Photo

By ELMO SCOTT WATSON

THE recent arrival in this country of Fraulein Thea Rasche, the foremost German aviatrix and stunt flyer, and her announcement that early next year, after doing some flying here, she will attempt to make a nonstop flight from New York to Germany, are a reminder that women are following closely in the footsteps of men even in aviation. It has long been a popular idea that the so-called weaker sex have little or no interest in those hazardous occupations which are supposed to be reserved for the hardier male sex. Aviation, where unshakable nerves and coolness in an emergency are prime necessities, theoretically has no place for the women, at least in performing some of the daredevil feats which the aviators perform.

But like so many other popular ideas this one in regard to women's nonparticipation in aviation is an erroneous one and there have been in the past and are now enough fearless bird women to prove that fact. Fraulein Rasche is only the latest one to command public attention. During her first flight from American soil at Roosevelt field when she took up her little Flamingo for ten minutes of exhibition flying, army pilots from Mitchell field pronounced her "a skillful and graceful flyer." She is preparing to show that she is also a fearless flyer by exhibitions of stunt flying which she will give in various parts of the country and she intends to pit her skill as a racing pilot in the New York to Spokane, Wash., air derby this month.

Fraulein Rasche, however, is only one of several women pilots who have attained more than passing notice in aviation. There is Mrs. Charlotte Alexander, who organized the only women's aviation corps in this country some years ago; there is Maxine Dicks, who is probably the only woman aviation "camera man" now pursuing that occupation; there is Trehawke Davies, the first woman to loop the loop in a plane; and there is Mlle. Adrienne Bolland, the French aviatrix, who was the first woman to fly across the English channel back in the days when that was regarded as a feat of considerable magnitude, and who added to her laurels by being the first woman to fly across the Andes mountains in South America.

Other bird women who have been in the news lately are Miss Ruby Thompson of Dallas, Texas, who was the first woman pilot to enter the proposed air race from Dallas to Hongkong, China, for the prize of $25,000 that has been offered for that feat, who will be accompanied on the flight by a navigator as well as a co-pilot; Miss Mildred Doran, a school teacher of Flint, Mich., who flew from her home in the Middle West to the Pacific coast within the last few weeks with the announced intention of attempting a flight to Honolulu with Augy Pedlar as pilot; and Miss Gladys Roy, who together with Lieut. Delmar L. Snyder, a former army aviator, is planning to attempt a New York-to-Rome flight. Miss Roy is a well-known stunt flyer who, not satisfied with risking her neck on the wing of a plane, added a sensational touch by doing her work with her head encased in a black bag. Among the other well-known women stunt flyers are Miss Gladys Engle, the California aviatrix whose favorite stunt was to jump from one plane to another, flying just overhead, and then, after making her flying leap, to hang by her heels from the upper wing of the plane on which she had just landed, and Miss Lillian Boyer, a girl of nineteen who, several years ago, gave the crowds a thrill by swinging from a cable beneath her aeroplane with only the grip of four slender fingers between her and the risk of a dash to the earth a thousand feet below.

Mention of Trehawke Davies' distinction of being the first to loop the loop recalls the feat of Laura Bromwell, a twenty-three-year-old girl who on May 15, 1921, made a loop the loop record when she executed 199 successive loops in one hour and twenty minutes. It also recalls her tragic death when her plane fell a thousand feet at Mitchell field near Mineola, Long Island, the next month (June 5, 1921) and she was dashed to the earth. Miss Bromwell was not the first bird woman to meet her fate in the air. Probably the first fatality among women aviators occurred in the early days of aeronautics when on June 5, 1912, Auguste Bernard and Mme. Rose Amicel, two French aviators, lost control of their machine near Buc, France, and came crashing to the earth where both were killed.

But stunt flying has not been the principal contribution of bird women to the progress of aviation. Mlle. Bolland's flight across the Andes, made in the infancy of aviation, was a practical demonstration of the possibilities of the aeroplane as a means of transportation to which high mountains could offer no barrier. She left Mendoza on the Argentine side at 6:32 on the morning of April 1, 1921, and soared high above the lofty peaks of the Andes with their treacherous air pockets where an accident meant instant death on their rocky slopes, or possibly starvation in the wilderness even in case of a safe landing. However, the trip was made without mishap, and she landed at Santiago, Chile, at 10 o'clock, less than three and a half hours after she had set out from the Argentine city. To Miss Phoebe J. Fairgrave, an eighteen-year-old girl, goes the credit for making a parachute jump which was a record for women at that time and probably still stands. On July 11, 1921, at the Curtis flying field, near St. Paul, Minn., Miss Fairgrave stepped out into space at an altitude of 15,200 feet, shot down with terrific velocity, and then as the silken umbrella opened, she floated gracefuly to the earth.

But of them all there is one who was acclaimed "Queen of the Air" some ten years ago and she still retains the major part of her claim to that title. For the altitude record for women aviators made on September 27, 1917, at Peoria, Ill., by Miss Ruth Law, still stands and that record is 14,701 feet. Establishing this record, however, was not Miss Law's first triumph. That had occurred the previous year when on November 19-20, 1916, she made what was then the longest nonstop flight record, from Chicago to Hornell, N. Y., a distance of 590 miles, thereby breaking the record of 452 miles, made by a man flyer earlier in the month. Her feat at that time was heralded as one of the greatest in the history of aviation, and it is interesting to read the following account of it which appeared in the columns of the Outlook Magazine for November 29, 1916:

THE HIGHEST MARK IN AMERICAN AVIATION

No less interesting than the scientific features of the record-breaking flight of Miss Ruth Law, from Chicago to New York, is the human significance of the accomplishment. Miss Law says the fact that she is a woman makes no difference, but it does.

The fact that the new American nonstop record was made by a 120-pound woman of twenty-eight, in a rebuilt aeroplane of almost obsolete type, doubles the prominence of this achievement in the public mind. General Wood reflected the popular admiration for Miss Law, when as he helped her from her seat at the end of her flight, at Governor's Island, he said, "Little girl, you beat them all."

In a nutshell, this is what Miss Law did. In a 100-horsepower, two-year-old biplane she flew without a stop from Chicago to Hornell, N. Y., a distance of 590 miles, thereby breaking the record of 453 miles made by Victor Carlstrom in the New York Times flight on November 2. Flying on to Governor's Island with a stop at Binghamton Miss Law completed the entire trip of 884 miles, from Chicago to Governor's Island in 8 hours 55 minutes and 35 seconds. Carlstrom's total time in the air from Chicago to New York was 8 hours 17 minutes.

With true sportsmanship, Carlstrom was one of the first to congratulate Miss Law, pronouncing her flight "the best performance to date in American aviation."

Few persons took Miss Law seriously when she announced her intentions of attempting the Chicago-New York flight. Although she holds the woman's record for altitude, she had never before flown more than 25 miles across country. Moreover, her machine is less than half as large as the one in which Carlstrom made his record, and carried only 53 gallons of gasoline as against 200 gallons carried by Carlstrom.

Miss Law's record has been stamped as official by the Aero Club of America.

The following contemporary account from the New York Sun is also worthy of reproduction because of the parallel in many respects between Miss Law's feat and the recent record-breaking one of Col. Charles Lindbergh. In it is reflected the same cool daring of the lone adventurer who set out almost casually on a great undertaking and the same modest wonder at all the popular acclaim which followed. The Sun article says:

Miss Law tried to buy a bigger machine such as Carlstrom had used, but Mr. Curtiss was afraid to sell her one for fear she would be killed. He thought it would be too powerful for her. But when he heard Sunday night of the record flight from Chicago to Hornell he called the Aero Club of America on the long-distance telephone and said she could have a new machine any time she wanted it, and she will likely want it for now she is going to try a nonstop flight from Chicago to Governor's Island.

Carlstrom, whose nonstop record was bettered by Miss Law, had the best equipment that money and science could produce and back of him was the entire Curtiss organization. His plane would carry 147 gallons more fuel than the machine Miss Law flew. He trained for weeks and waited day after day for favorable winds before making his start. Miss Law, who never had flown more than 25 miles in a single flight before, just had some new gas tanks put on her aeroplane, notified the Aero club to make the flight official, and started.

Miss Law was thoroughly chilled when she arrived, but seemed to be in the pink of condition, resourceful and not disposed to take herself seriously. She is slight, fair-haired, and weighs only about a hundred twenty pounds. She was openly pleased at the reception the army officers and Aero club officials gave her, but she was a little bashful at first and looked as though she was wondering just why they were all there. Although this woman has been flying since 1912, she is only twenty-eight. She has had an uphill fight without financial backing, risking her life in machines that were none too good and she seemed hardly to realize that she had at last attained a goal of popularity, publicity and official recognition of the Aero club and that she is the peer of any male flyer in America. Miss Law has always been in competition with men, flying in machines that were inferior to their's and this time she won out.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

An Unfailing Topic

Barker—While your wife is away in the country what does she find to write you about so regularly?

Brown—Money.

Famous Cheeses

Roquefort cheese is made from the milk of sheep. Gorgonzola, another highly flavored cheese, is made from cow's milk.

BAYER

Genuine ASPIRIN

SAY "BAYER ASPIRIN" and INSIST!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years.

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

A Mental Strain

"I'm thinking of a trip to Europe."

"Really, old man, you can't afford that. You're not accustomed to that sort of thing."

"I merely said I was thinking of it. I can afford to think, can't I?"

"No; that's what I mean. You're not accustomed to thinking."

INDIGESTION

If you are troubled with indigestion, dyspepsia, constipation or similar disorders

Green's August Flower

will help you. Has been used successfully for more than half a century. 30c and 90c bottles. At all druggists. G. G. Green, Inc., Woodbury, N. J.

CORNS

Ends pain at once!

In *one minute* pain from corns is ended. Dr. Scholl's Zino-pads do this *safely* by removing the *cause*—pressing and rubbing of shoes. They are thin, medicated, antiseptic, healing. At all drug and shoe stores. Cost but a trifle.

Dr Scholl's Zino-pads

Put one on—the pain is gone!

DON'T EXPERIMENT ON YOUR EYES

MITCHELL EYE SALVE

heals inflamed eyes, granulated lids, styes, etc. Sure. Safe. Speedy. 25c at all druggists. Hall & Ruckel, N.Y.C.

Anyone in the Printing Business or Figuring to start, can learn how $500 to $5,000 extra yearly can be earned without increasing investment, for $1 and stamped, self-addressed envelope. Printshop, 2159 E. 24th St., Oakland, Calif.

Housewives—Reduce Canning Time 75%. Ask druggists, grocers for Mrs. Price's Canning Compound. Send name and address of self and five friends for one sample. Two extra samples 10c. K1605 North Penn, Minneapolis, Minn.

LAST STAND of the cockroach army

No use waving that white flag!

Peterman's will get him

EVERY cockroach in thousands of homes has been exterminated by Peterman's this season.

You *must* have a *powder* for roaches. Peterman's Roach Food is the right powder. It *entices* cockroaches from their nests.

They get just a little on their legs. Back to their nests they go—behind baseboards, under floors, *where no spray could reach them.*

Every cockroach they touch, their young, every egg is exterminated. Nothing is left but a little dry dust. No odor.

Here is the right insecticide for each insect:

PETERMAN'S ROACH FOOD—exterminates cockroaches.

PETERMAN'S ANT FOOD—exterminates ants.

PETERMAN'S DISCOVERY (*Liquid*)—exterminates bedbugs (used through spout on can).

FLYOSAN—kills flies and mosquitoes.

PETERMAN'S MOTH FOOD—protects against moths.

You *must* have a specific insecticide for *each* insect. No single insecticide will exterminate them all. We have had nearly 50 years' experience. We *know* that is true.

Peterman's has the right insecticide for each insect. On sale wherever drugs are sold.

Peterman's 200 Fifth Ave., N.Y.C.

Mrs. Jack Goldner is home from the hospital and doing as well as could be expected under the circumstances.

SUPERVISORS SET DATE FOR NILES BID

The board of supervisors has set Monday, September 12, as the date for opening bids for the construction of a wire fence around the county corporation yard near Niles.

COMMUNICATED

She sat alone, erect, alert,
Listening to the game;
Familiar figure? Yes, I thought,
But could not call her name.
Boy-bob, clean cut; the kind you like to meet;
Legs crossed in co-ed style,
Short skirt and dainty feet.
"Happy days, my dear, my dear,
It's strange we never met;
Another look, Oh, now I see:
Grandma and her cigarette.

ART OF BEING KIND

Here is something we often forget, told in meter by a stray verse. On the telephone the "smile" registers as readily as face to face, even if unseen.

A voice across the telephone
Can make or mar the day.
Be careful of the tone you use,
And think of what you say.
Your pleasant smile may not be seen,
Or known your kindly heart,
For people at the telephone
Are often miles apart.
Then sow a "smile" and reap a "smile"
And in the end you'll find
That nothing pays more interest
Than the art of being kind.

SUNOL

Mr. and Mrs. E. H. Blade and small son of New York are visiting Mrs. Blade's mother, Mrs. I. Ledyard.

G. O. Heine and M. Williams have returned fro ma business trip to Los Angeles.

Frank Sheldon and his cousin, Miss Katherine Walsh of San Francisco, are spending a few days at the Sheldon ranch near here.

Mr. and Mrs. Harry Douglas of Los Angeles are visiting Mrs. Douglas' mother, Mrs. M. Whitaker.

The Wilson family has returned from Canada, where they visited relatives for several weeks.

Mrs. C. B. Lucier is spending a few days at Carmel.

Mrs. C. B. Stearne is spending a few days at the Ellis home.

Mrs. D. J. Hurley, who recently returned from an extended vacation in the south, presided at the first meeting of the Sunol Parent-Teacher association held Wednesday afternoon.

INFANT CHRISTENED

William Otto Zorns, infant son of Mr. and Mrs. William E. Zorns and grandson of Otto Zorns, superintendent of the Alden Salt company, was christened Monday by Father John P. Casey at St. Edward's church.

TELEPHONE MOUTHPIECE NOT A GERM CARRIER

The telephone mouthpieces has been completely vindicated of guilt as a germ carrier. Tried by an impartial jury of medical experts and found innocent of all charges of collusion, contamination and collaboration with disease germs, was the experience to which this useful instrument of communication was recently subjected, according to facts revealed by Dr. Royal S. Copeland, M. D., formerly commissioner of health of New York City and a leading member of the nation's medical fraternity.

To determine the matter of the possible dangers of the telephone mouthpiece, Dr. Copeland states that the department of laboratories made many tests and the workers all agreed that "it is most uncommon to find any dangerous germs attached to telephones."

"One of the hardest things for us old-fashioned folks to believe is the fact that disease is rarely carried by things," said Dr. Copeland. "It is carried by persons. The moist secretions, especially from the nose and throat, are the offending substances. They can be passed from the hands of the ailing person to the hands of the well person and from those to the lips or nose. Then the work of infection has begun.

"It is readily conceivable that the moist drops of discharge might be sprayed upon the mouthpiece of a telephone. If it were immediately used by a second person, before the moisture could dry, and the lips and tongue were brought in contact with this secretion, there might be an infection.

"In practice, however, the fastidious person certainly does not touch the mouthpiece with lips or tongue. It would be in a very rare case indeed that this contact could take place when contaminated moisture was present. More than this, it is unusual to find any dangerous germs. The mots careful tests show this."
